**General Knowledge,
Skills and Ability:**
A Master's degree in Computer Science, Information Technology, Computer Networking or a related field and four (4) years of college teaching experience combined with four (4) years of work experience in the field is required. College teaching experience with an ethnically diverse and urban student population is desirable. CCNA certification and expertise in Cybersecurity is required. Other security certifications and designations are also preferred. Applicants should be able to show evidence of commitment to the mission of a comprehensive community college with an urban, non-traditional, multicultural student population.

General Experience:
Under the direction and supervision of the Chair of the Business and Technology Department, the Assistant Professor, Program Coordinator/Computer Networking & Cybersecurity will be expected to prepare and teach college approved courses in the program. This will include but is not limited to the following: developing new courses and syllabi, assist in the development of class schedules, oversee staffing of classes, assist in the selection of texts and related teaching resources, participate in the assessment of student learning, engage in academic and career-oriented student advisement, oversee credit internship placements, and meeting other responsibilities required of all faculty members. Course subject areas will include the following: data communications & networking concepts and technologies; network infrastructure design, implementation and maintenance; network security technology, policies and procedures; information assurance; risk assessment and management; penetration testing; and digital forensics. Hands on instruction and familiarity with conducting class in a lab and virtual environment are also preferred.

This position is being funded by a grant from the US Department of Labor Trade Adjustment Assistance Community College and Career Training (TAACCCT) grant program.

Substitution Allowed:
Applicants who do not meet the minimum qualifications are encouraged to put in writing exactly how their experience has prepared them for the responsibilities of this position and by providing appropriate references. Exceptions to the degree requirements may be made for compelling reasons.

**Application
Instructions:**   Send or email letter of intent, resume, names and address of three reference, BOR Employment Application (found at: http://www.ct.edu/hr/employment) and college transcripts to:
